

WISHING MATRICULATE'S ALL THE BEST ON THEIR EXAMS

The Acting Mayor of Kgatelopele, Hon Cllr Williams hereby wishes all Matriculates residing in Kgatelopele all the best with the final exams. You are more fortunate and privileged than other young South Africans who dream of the opportunity you are experiencing now, as this is the time to unlock your future. I hope up to this time you have used your time wisely and that you have studied hard in preparing for this last exam of your high school. Only your best efforts will allow you to gain acceptance to tertiary institutions, and I am aware that some learners are living and studying under very difficult circumstances, but never allow your circumstances to be an excuse not to give your best, nor to determine your future. Matriculates'

God has blessed you with a sound mind and the potential to perform at the highest level. Remember through education you have an opportunity to change your circumstances and those of your family's forever. It was the late President Nelson Mandela who said "Education is the most powerful weapon which you can use to change your world". Do not ever give up, because our great weakness lies in giving up. The most certain path to success lies in trying one more time, I am not saying that your exam is going to be easy, but what I want to tell you is that it will be worth it in the end.

I also want to extend an invitation to family and friends to give our matriculates all the support you can in this time of final exams; parents please manage the usage of cell phones during this period. This is a huge distraction and can be detrimental.

Matrics - your destiny lies in your own hands. Only you can decide whether you will cry tears of joy, or tears of disappointment when you receive your results.

Remember God only helps those who are prepared to help themselves.

I wish you the best of luck and success for the examinations.

Believe in yourself, work hard and do your best.

Wish you all the best!

**Hon Acting Mayor
Cllr IN Williams**
