FUNDING AND RESERVES  
POLICY

KGATELOPELE LOCAL MUNICIPALITY

## 1. OBJECT OF FUNDING AND RESERVES POLICY

The objective of this policy is to provide for frameworks for establishment and maintenance of the necessary funding and reserves that will enable the municipality to support effective service delivery and to:

- | Manage cash flow interruptions;
- | Minimize the need for working capital borrowing;
- | Meet commitments, obligations or other contingencies;
- | Provide flexibility for new organizational priorities; and
- | Generate investment income.

## 2. LEGISLATIVE CONTEXT

Regulation 8(1) of municipal Budgeting and Reporting Regulations, 2008 requires that each municipality must have funding and reserves policy which set out assumptions and methodology for estimating:

- | Projected billings, collections and all direct revenue
- | The provision for revenue that will not be collected
- | The funds the municipality can expect to receive from investments
- | The dividends the municipality can expect to receive from municipal entities
- | The proceeds the municipality can expect to receive from transfer or disposal of assets
- | The municipality's borrowing requirements
- | The funds to be set aside as reserves

## 3. DEFINITIONS

**Reserve:** is the retained surplus set aside for a specific purpose.

**Statutory Funds:** are reserves which a municipality is required to create and maintain in terms of specific legislation.

**Special Funds:** are those funds which can be created in terms of legislation but at the discretion of Council.

**Funds:** are the accumulations included in statutory and special funds. Such accumulations will usually be represented by cash.

#### **4. FUNDING AND RESERVES PRINCIPLES**

- a) Reserves shall be accounted for separate and apart from Operating Funds.
- b) the Chief Financial Officer shall be responsible for developing and recommending policies and guidelines for the investment of the reserve assets and for approval by Council
- c) the reserve goal shall be to achieve and maintain between three and six months of Program Funding and Operating Costs. .
- d) the municipality shall, as far as circumstances reasonably permit, ensure surplus generated from its trading services, shall firstly be applied in relief of property rates and for the partial financing of general services or for the future capital expansion of the service concerned, or both.
- e) During those periods when cash revenues are not needed for capital or operational purposes, shall be invested in terms of the approved Investments Policy.
- f) The reserves shall be intended to serve a dynamic role and must be available to be utilized as needed rather than being static, devoted only to generating interest income.

#### **5. FUNDING OF ANNUAL BUDGETS**

##### **5.1 Revenue Projections**

The municipality's cash flow budget shall be based on revenue projections that must part of the cash management programme which must identify the amounts surplus to the municipality's needs, as well as the time when and period for which such revenues are surplus.

The Chief Financial Officer shall prepare an annual estimate of the municipality's cash flows, in line with the approved Banking and Investment Policy, Municipal Budgeting and Reporting Regulations of 2008, and any other prescribe guidelines by the National Treasury.

The revenue projections must be based of realistically anticipated revenues, taking into account projected revenue for the current year based on collection levels to date; and actual revenue collected in previous financial years.

The estimate must indicate when and for what periods and amounts surplus revenues may be invested, put in reserves, for what amounts investments and reserves will have to be liquidated, and for what purpose.

Estimated projection for revenue from rates and taxes, levies and services charges that will not be collected shall be budgeted for separately and reflected on the expenditure side of the of the annual operating budget.

All consumers and ratepayers shall be accounted for in the annual budget calculations, and all property records, billing system information and metering information must be consistent with the revenue projections.

## **5.2 Operating Expenditure**

The annual budgets of the municipality shall only be funded from the following sources:

- a) realistically anticipated revenues to be collected, consistent with trends, current and past, of actual funding received or collected;
- b) cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and
- c) borrowed funds, in terms of the approved Borrowing Policy

## **5.3 Capital Expenditure**

The municipality's capital budget must show all the capital expenditure budgeted for and the different funding for each capital expenditure item by source.

All sources of capital funding budgeted for must be available and not committed for any other purpose.

The total budgeted capital funding by sources must be equal to the total budgeted expenditure capital expenditure.

#### **5.4 Unspent funds**

The appropriation of funds in an annual or adjustments budget lapses to the extent that those funds are unspent at the end of the financial year to which the budget relates, except in the case of an appropriation for expenditure made for a period longer than that financial year in terms of section 16(3) of Municipal Finance Management Act.
