Open only the financial proposals of Tenderers, who score in the quality evaluation above the minimum number of points for quality stated in the Tender Data, and announce the score obtained for the technical proposals and the total price and any preferences claimed. Return unopened financial proposals to Tenderers whose technical proposals failed to achieve the minimum number of points for quality.

NON-DISCLOSURE

Not disclose to Tenderers, or to any other person not officially concerned with such processes, information relating to the evaluation and comparison of Tender offers, the final evaluation price and recommendations for the award of a contract, until after the award of the contract to the successful Tenderer.

GROUNDINGS FOR REJECTION AND DISQUALIFICATION

Determine whether there has been any effort by a Tenderer to influence the processing of Tender offers and instantly disqualify a Tenderer (and his Tender offer) if it is established that he engaged in corrupt or fraudulent practices.

TEST FOR RESPONSIVENESS

Determine, on opening and before detailed evaluation, whether each Tender offer properly received:

- a. meets the requirements of these Conditions of Tender,
- b. has been properly and fully completed and signed, and
- c. is responsive to the other requirements of the Tender documents.

A responsive Tender is one that **conforms** to all the terms, conditions, and specifications of the Tender documents without material deviation or qualification. A material deviation or qualification is one which, in the Employer's opinion, would:

- a. Detrimentially affect the scope, quality, or performance of the Works, services or supply identified in the Scope of Work,
- b. Change the Employer's or the Tenderer's risks and responsibilities under the contract, or
- c. Affect the competitive position of other Tenderers presenting responsive Tenders, if it were to be rectified.
- d. Reject a non-responsive Tender offer, and not allow it to be subsequently made responsive by correction or withdrawal of the non-conforming deviation or reservation.

ARITHMETICAL ERRORS

Check responsive Tender offers for arithmetical errors, correcting them in the following manner:

- a. Where there is a discrepancy between the amounts in figures and in words, the amount in words shall govern.
- b. If a Bill of Quantities (or Bill of Materials or schedule of rates) applies and there is an error in the line item total resulting from the product of the unit rate and the quantity, the line item total shall govern and the rate shall be corrected. Where there is an obviously gross misplacement of the decimal

point in the unit rate, the line item total as quoted shall govern, and the unit rate will be corrected.

- c. Where there is an error in the total of the prices either as a result of other corrections required by this checking process or in the Tenderer's addition of prices, the total of the prices shall govern and the Tenderer will be asked to revise selected item prices (and their rates if a Bill of Quantities applies) to achieve the Tendered total of the prices.
- d. Consider the rejection of a Tender offer if the Tenderer does not correct or accept the correction of his arithmetical errors in the manner described above.

CLARIFICATION OF A TENDER OFFER

Obtain clarification from a Tenderer on any matter that could give rise to ambiguity in a contract arising from the Tender offer.
